

PRESS RELEASE

JANUARY 2021

**NEW FROM VARGUS:**  
**ALCS External Thread Turning Toolholders**  
*With High Pressure Coolant for Swiss Type Machines*

**January 2021, VARGUS Ltd.**, worldwide leader in threading, is pleased to announce the global launch of our ALCS external thread turning toolholders designed to improve productivity with High Pressure Coolant (HPC) for Swiss Type machines.

Each toolholder includes two dedicated inlets, accessible from both sides of the holder for Swiss Type machines. Back and bottom coolant inlets are also available for conventional machines.

The toolholders, with High Pressure Coolant up to 70 bar (PSI 1015), are available for standard insert sizes: 1/4" (11) and 3/8" (16), and Shank sizes 10mm and 12mm, with and without anvils.

These toolholders are nickel coated for better wear resistance and anti-corrosion protection. Left-Hand holders are available as a standard.

A new and additional feature to these specific toolholders is the laser marking which also includes the spare parts details.

The NEW External Toolholders with HPC are included in the **VARGUS GENIUS™**, the most advanced Tool Selector and CNC Program Generator in the metal cutting tools industry.
