

Heavy-Duty - E Tool Sets

Applications

Cross-Hole Both Edges

Hole Edge

Straight Edge

Heavy-duty deburring tool sets are specially designed for the mass production of work pieces which require additional strength during the deburring process. All sets contain replaceable E-series blades.

mango II

Extra-Close

Sets for extra-close jobs and applications when you need to get right up to the work piece. Set contains 5 HSS heavy-duty E blades for the 3 most popular applications.

E100

High quality ergonomic handle designed for heavy duty applications.

Safety Lock

Includes safety lock to prevent losing blades while working.
